Capewell Components Co. LLC appoints Michael K. Voisine as President of Capewell

Capewell Components Company, L.L.C. is pleased to announce the appointment of Michael K. Voisine as President of the Capewell Division, located in South Windsor, CT. Most recently, Mr. Voisine ran International Defense Development, a strategic planning consulting business and previously has held a variety of senior management roles of increasing responsibility at Ensign-Bickford Aerospace & Defense Company and Hamilton Sundstrand. He is a graduate of the University of Massachusetts at Dartmouth (BSEE) and Western New England College (MBA).

“Mr. Voisine’s aerospace engineering, strategic planning and new product development background is vital to Capewell’s continued growth and success,” said Ken MacCormac, President of Capewell Components Co. LLC. “We look forward to having Mike lead us in expanding Capewell’s position as the world’s leader of life support and aerial delivery systems.”

Capewell is a manufacturer of life support and aerial delivery equipment for aerospace and defense customers worldwide. The company has been located in the greater Hartford region since 1881 and now operates divisions in South Windsor and Cromwell, CT.
